Jay Peak Day, Oct. 20

Everyone in Johnson, Belvidere, Hyde Park and Eden ought to get busy next Friday and join with all Orleans county in doing something to make Jay Peak better known and more accessible from this end.

A startling heading in a Vermont exchange reads, "Burn New Pastor." At first this looked as if the parishioners had burned their new pastor, but a reading of the article showed that "Burn" was the name of the "new pastor." Anyhow, we hope they will not burn their new pastor, or roast him, or make it hot for him.

SENTENCE SUSPENDED

In the item on page 3 in re the seizure of a still in Stowe, the report failed to state that I. M. Waburton was given a prison sentence of not less than 11 months nor more than two years, as well as the fine and costs.

Hubert Rooney a Partridge Chamer

Hubert Rooney seems to have quite an attraction for partridges. The young lad is quite successful in bringing them home when he goes afield with his gun, but the strange feature of it is that the birds come to him. One day recently Mr. Rooney noticed a partridge fly into one of the small shade trees in front of the house. She watched it for sometime. When school was dismissed for recess, she sent word to Hubert, who came and brought down the bird. This morning as Hubert was going out to feed the hens he saw a partridge sitting on the fence. He promptly dropped the feed dish and ran for his gun. The partridge waited and Hubert is having partridge dinner again today. The bird proved to be a young drummer.

LIGHT THE STREETS

Editor News and Citizen:

Realizing the value of our home papers for calling attention to things of public interest, I hope you will publish this communication.

We are not disposed to find fault with the management of our electric light system. We believe they have the best interest of the village always in mind and are endeavoring to give us the best service possible. However, it would seem that they should have in mind that when a public gathering is in session every effort should be made to light the principal streets of the village during that time. Last Sunday night is a case in point. At that time a largely attended service was held in the Congregational Church and the streets were in utter darkness, so dark that folks had to grope their way with great caution in order to keep out of the ditches and gutters. This should not be so.

MORE LIGHT.
